

WE'RE READY WHEN YOU ARE

WELCOME BACK

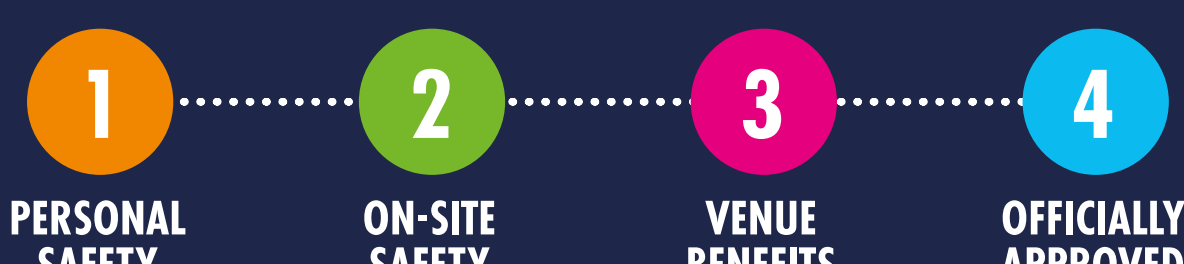

We understand that it has been a challenging time for the hospitality and events industry, which is why Newbury Racecourse is looking forward to welcoming you back. We've been working hard to adapt to a 'new' normal and have introduced a number of protective measures across the site to ensure the safest possible environment for everyone.

Whatever the event, whatever size, we have your safety covered.

OUR SAFETY PLAN

We have installed a number of safety measures and procedures across our site

OUR MEASURES

SOCIAL DISTANCING

We have social distancing measures covered across the site including floor markings and can provide social distancing officers if required to help your event run smoothly.

SAFETY SCREENS

We have installed safety screens in a number of locations around the site including our reception areas.

ONE-WAY SYSTEMS

We have set up effective flow systems across all the buildings and outdoor areas to limit the amount of people using the space at any one time and ensure social distancing.

ON-SITE SIGNAGE

From A boards to digital totems and big screens, there is plenty of signage across the site to remind and reinforce key safety procedures and protocols for your guests and also our staff

NATURAL AIR CIRCULATION

All conference rooms have either bifold or large doors that can be kept open to ensure natural air circulation to refrain from using air conditioning.

HAND HYGIENE

From entry to exit, you will find hand sanitiser stations across the site with regular hand washing or all our staff.

ON-SITE PPE

All our staff are required to and will be wearing PPE at all times during your event to ensure your safety is the top priority. PPE will also be available to customers while attending an event if requested.

ADDITIONAL CLEANING

New cleaning measures have been put in place in all spaces, especially communal areas and toilets, to maintain the correct levels of effective hygiene and protection while onsite.

LARGE EVENT SPACES

With 225 acres of outdoor space and up to 2000sqm of internal space, we have the ability and flexibility to put safety measures in place to still be able to run large events or conferences in a secure way.

SAFETY PROTOCOL

Aligned to government guidelines issued for elite sports to return, our protective measures and operational procedures have allowed us to run horseracing, making our venue a safe place for large-scale events

FURTHER INFORMATION

We have your safety covered so get in touch now with a member of the events team via email or visit our website
